

## Contents and Stock

If there was an incident at your business premises and you lose stock, equipment and other goods, contents and stock insurance covers the cost of replacing the items, allowing you to get back to trading quickly and with minimal disruption.

Our contents and stock insurance will cover the cost of fixing or replacing any of your insured items. No matter what type of business you run there are always essential items that need to be protected. Without the right type and level of insurance cover you may have to temporarily stop trading. Because of this, many of our clients take [Business Interruption Cover](#) as well to fully protect themselves.
