

Contractors All Risks

Contractors All Risks cover protects employers and contractors against your responsibility for loss or damage on any building site that you or your team work on. The policy consists of three main parts: Contract Works, Public Liability and Employers' Liability Insurance.

The contract works element offers cover for the property and any materials used, the Public Liability section covers you for any third-party property damage and injury to people, and the Employers' Liability Insurance provides cover for any injury of your employees. For most businesses and employers involved in construction it is a must.

What's typically covered?
