

## Personal Accident and Travel

Personal accident and travel is designed to protect the businesses directors, partners and/or employees who may suffer accidental death or disability. The policy is a direct benefit to directors or staff or their beneficiary, paid for by the business. Travel and sickness exposures may also be included.

Every business will have staff who may be protected, either during normal business hours or 24/7. The extent of the financial benefits may be tailored to the company's requirements and in addition to compensating for accidental death, cover can also include permanent disability, partial disability and loss of hearing/sight.
