

## Roofers and Scaffolders

We specialise in arranging insurance solutions for UK business providing roofing and scaffolding services

Miles Smith have been providing insurance solutions to professional roofing and scaffolding contractors for many years. The nature of this line of work is high-risk, therefore it is vital that you work with an insurance broker who understands your business and can tailor their advice accordingly.

We have many years of experience arranging insurance for roofing and scaffolding contractors, including cover for hot and cold roofing, soffit, fascia and building and cladding works.

When we work with new roofing and scaffolding clients our process begins by taking the time to understand your business and the risks you face, before we make our recommendations, and provide advice for how you can manage your risks. We use our strong relationships in the insurance market to arrange a competitive and complete insurance solution for your business.

Our solutions are specifically designed with the customer in mind, providing the cover your business needs at a competitive price. In addition, we also provide incentives such as reduced premiums for those who have a demonstrable record for good risk management and health & safety practices

### WHY MILES SMITH?

- ✓ We can arrange cover for both hot and cold roofing
- ✓ We may be able to offer reduced premiums for those who can show a good record of health & safety
- ✓ We can arrange cover no matter how high the building you are working on is
- ✓ We can carry out a confidential review of your current insurance provision to ensure there are no gaps in cover

### Who is it for?

- ✓ **Hot & cold roofers**
- ✓ **Wet & dry roofers**
- ✓ **Specialist roofing contractors**
- ✓ **Scaffolding contractors**

# Roofers and Scaffolders Covers

“I have dealt with Miles Smith for a number of years now, and am very grateful for the advice together with the support given. Prior to their involvement, I had suffered a deteriorating claims experience and through various Risk Management guidance, including the fitting of cameras, my experience has radically improved. I now regard them as part of my team, and look forward to working with them in the years ahead”
